## BOND ELECTION FOR GAS IN VERDUGO TO BE CALLED

**Various Interests Agree on Plan to Install System on Both East and West Side**

Installation of gas service in Verdugo Woodlands will immediately follow the voting of bonds for that purpose.

Further, the service will be installed on both the east and west sides of the canyon.

Also, immediate action will be taken to "iron out" the problems affecting the water situation in the canyon shortly.

Those, in brief, are the "high spots" brought out at the meeting of the city council last night, attended by F. P. Newport, representing the F. P. Newport company, one of the large property holders in the Woodlands; a committee of the Verdugo Woodlands Improvement association, headed by John L. Bolen as chairman, and Dr. H. B. Crocker, a large property owner on the east side.

### Quickest Solution

The gas and water situation in the Woodlands was discussed at a previous meeting of the council and last night Mr. Newport opened the discussion by saying he believed that the best and quickest solution of the problem was for the improvement association committee to form, if there were no legal obstacles, an improvement district for the purpose of voting bonds to install gas mains.

"This action should be taken irrespective of the water situation," said Mr. Newport. "The interests I represent will be pleased to co-operate with the committee in securing gas. The water problem will, I hope, be taken care of later. The two cannot be tied together, I believe."

Attorney W. E. Evans, representing the Verdugo Woodlands Improvement association in a legal capacity, said:

"Mr. Newport has taken the right stand in not involving the two propositions. The committee I represent is not taking any part in the water question. That is, we take it, a matter for Mr. Newport, the city council and other interests to settle."

Attorney Evans then stated that (Continued on Page 3)

## W. T. Sprowls Says This Is Surprise City

"If the people here don't pay me a bonus, I won't stay away from Glendale," yesterday with a laugh remarked W. T. Sprowls of Phoenix, Arizona, commenting upon the fact that Glendale's marvelous growth commenced two years ago—as soon as he had taken his permanent address elsewhere.

"I have never seen any place improve like Glendale," he declared with enthusiasm. "I was here last September and I thought then that I had never seen any place go ahead so fast as Glendale; I was here in November and it was still improving and now it is still continuing."

Mr. Sprowls reports that conditions in Phoenix look more encouraging now than they have for some time past owing to the fact that the mines are opening up again and the farmers are planting alfalfa and bringing dairy cattle back into the Salt River Valley.

This is a business trip for Mr. Sprowls as a number of Glendale residents are interested in oil property managed by him which, he says, is about to bring in a gusher.

## ASSOCIATION GIVES INDORSEMENT TO SCHOOL BONDS

**San Fernando Boulevard Body Pledges Support; Members Press Civic Projects**

The San Fernando Boulevard association last night indorsed the \$600,000 bond issue for the construction of a new high school plant and pledged its unanimous support in the coming campaign for educational funds.

The meeting was held at 806 South San Fernando road in the plumbing shop of William Griffin, president of the organization, and was well attended.

Initial proceedings have been started by the city to install lights on San Fernando road, according to the report submitted. It was stated that this work would be rushed as rapidly as possible.

The subject of the installation of a bridge over the river at Park avenue was discussed and attention was called to the fact that residents of Los Angeles living across the river at this point are obliged to go south to the Los Feliz bridge before coming north to Glendale.

Emphasis was laid upon the fact that residents of this district who come to Glendale daily are obliged to travel more than 700 miles a year farther.

Members of the bridge committee are William Griffin, 806 South San Fernando road; Mrs. May P. Moberly, 1011 South San Fernando road; Charles Wilson, 1019 South Columbus avenue, and H. S. Cobb, 1118 South San Fernando road.

## RESIDENCE SECTION IN ZONING LAW IS DESCRIBED

**City Attorney Woodard Gives His Opinion As to Legal Phases of District**

At a recent meeting of the city council, A. J. Van Wie, city clerk, asked for a legal construction on a provision of the zoning ordinance relative to a first-class residential district. The council instructed Bert P. Woodard, city attorney, to prepare it. The city attorney's view of the provision follows in full:

"You have asked me to construe Section 11 of Ordinance 529, and to let you know what is meant by the creation of the first-class residential district, as therein contemplated.

"This section states that the council has not made a comprehensive study of all that portion of the city lying within the residential district as created by the ordinance, and for that reason, does not create or establish any district or districts, within said residential district, and the matter of establishing such district is left open for future action by the council, and also provides the manner or procedure by which a 'first-class' residential district may be created. Under the ordinance, a petition may be filed with the city clerk as therein set forth, and may be established, be restricted from any and all industries, trades and businesses, and from the erection, construction, establishment, alteration or change of any and all building structures or improvements which are designed, intended or arranged to be occupied or used for any purpose other than a single family residence or dwelling.

**Purpose of Ordinance**  
"The purpose of the ordinance is to leave the matter of districting all of the territory of the city, which is not included within the commercial or industrial districts, for future determination by the council.

"Each ordinance creating a first-class residential district, in addition to providing that said territory or district to be restricted from the erection, construction, establishment, alteration or change of any and all buildings, structures or improvements which are designed, intended or arranged to be occupied or used for any purpose other than a single family residence or dwelling, should

## April Fool Party in Honor of Miss Hixon

More than fifty young people participated in the fun of an April Fool party given last night by the members of the Epworth League of the Pacific avenue Methodist church in the social hall, taking part in the games and community singing and indulging in the "delicious" chocolate fudge coated with cayenne pepper and also of the ice cream composed of cotton dipped in chocolate. Afterward, however, real delicious home-made cake was served.

The party was also a surprise in honor of the birthday anniversary of Miss Lucile Hixon, first vice president of the League, and who has worked faithfully for the chapter for the past five months. As a token of their esteem and appreciation, the members of the League presented Miss Hixon with a beautiful wrist watch of white gold, sixteen jewels, and set in sapphires and rubies. Mrs. Alma T. Preston made the presentation in behalf of the League and Miss Hixon graciously responded with few well chosen words. Another surprise for her was the presentation also of two large birthday cakes.

The entire event was a complete surprise to Miss Hixon, the amusing part of it being that she was working hard for the success of the party, not knowing it was in her honor. Those present included the following:

Alma T. Preston, Helen Gould, Lella Whitehead, Vivian Hewitt, Ray Cleveland, Claire Robinson, Gladys Flagg, Wayne Gulick, Donna Wilson, Ray Whitehead, Ethel Davidson, Irene Gervais, Mr. Foster, Virginia Fisher, Betty Gregory, Ellen Tronier, Sara Hommer, Laura Skelton, Russell Briggs, Alda Gervais, Alden Hayse, Mrs. Fisher, Lucile Hixon, Ethel Merriken, Mrs. Guy Dix, Frances Marsh, Mr. Tronier, Margaret Skelton, Virginia Packard, Vera Howe, Carol Hewitt, Ida Day, Mr. Fisher, Norma Martin, Edith Bjorklon, Mrs. Wilson, Dorothea Clark, Emily Skelton, Leslie Tronier, Ethel Wilson, Elizabeth Canfield, Margaret Austin, Jessie Holmes, Mrs. Tronier and Harley G. Preston, pastor.

## DR. BROUGHER TELLS ROAD TO SUCCESS AND HAPPINESS

**Noted Lecture to Knights Templar and Friends**

"The secret of success and happiness in life is the development of all your powers to the highest degree of efficiency possible and the use of them for the benefit of humanity."

Dr. James Whitcomb Brougher, who for the past twelve years has been pastor of the Temple Baptist church in Los Angeles, last night told a large audience of Knights Templar and their friends at the Masonic temple that the first part of this rule was the key to life and the second half the key to success.

Preceding the lecture, several sections were played by the high school orchestra under the leadership of Mrs. Dora L. Gibson. These were much applauded.

As grand knight, George U. Moyses of 322 East Harvard presided while the speaker was introduced by Mattison B. Jones of 1901 Kenneth road. Dr. Brougher's speech was replete with witticisms and humorous anecdotes which kept his audience in a furor and sputter of laughter during a large portion of the time.

## Keep in Condition

"The great majority of people sooner or later have an ambition that they would like to make the very best out of themselves," asserted Rev. Brougher. "You ought to keep your bodies good and strong, but how few of you take any pains to do so. Is the football game worth more than the game of life, more than the law, the ministry business? You are glad to have your boy practice self-denial for the football season, but what man goes through the same self-denial to make his body safe for business? No, you say 'I'll do just as I darn please.'"

"It is worth your while to develop your powers to the highest degree of efficiency? Isn't the game of life worth anything to you?"

"God Almighty has given everybody a mind—almost everybody. The simple question is: What are you doing with it? Do we do any thinking for ourselves or do we let other people do it? Have you developed your brain to the highest degree of efficiency? I believe that women as well as men should develop their

## Additional Police Protection Plan Of Chief J. D. Fraser

Glendale's police department will have a "flying squadron."

The city council last night authorized Police Chief John D. Fraser to employ an emergency motorcycle officer to work at night from headquarters, answering complaints of burglaries, prowlers, etc.

A signal light system will be put into operation so that the patrolman in that section of the city from whence the call comes will be picked up and ride tandem, according to the chief.

This additional protection, it is believed, will solve the problem of policing the entire city at night with the co-operation of residents.

## LET PEOPLE DECIDE ON BUS SYSTEM, OFFICIAL SAYS

**City Attorney Bert P. Woodard Submits Proposition to Los Angeles Utilities Board**

"Reasons why the Board of Public Utilities of the City of Los Angeles should grant Glendale permission to operate a bus line upon the streets of Los Angeles are outlined in the brief filed yesterday with that body by Bert P. Woodard, city attorney, and C. D. Gulick, city bus expert."

"The city of Glendale has presented its application and feels that the Board has sufficient facts and information to establish the inadequacy of the Pacific Electric lines," declared Attorney Woodard. "To employ engineers and make an exhaustive investigation would consume much time and involve an expenditure of large sums of money and is an unnecessary undertaking which should not be required of the city of Glendale at this time."

"The Board of Public Utilities has no power to fix the rate to be charged upon the bus line. The rate fixing power is vested in the Railroad Commission even though the applicant be a private person or private corporation. The city of Glendale itself is vested with ample authority to fix its own rates in all municipally owned utilities."

## File Rate Schedule

"Schedule of rates and tariffs have been filed, however, and applicant city is ready to furnish the Board with all information and data within its possession."

"The board has also asked, 'Do the people of Glendale want the Pacific Electric service discontinued?' This question is best answered by the fact that the mayor and four other members of the council of the city of Glendale, together with the president and secretary of the Chamber of Commerce and many other citizens and members of Glendale civic organizations have appeared before your board and have testified that the people want the proposed bus line regardless of whether the Pacific Electric service is continued or discontinued."

"It is also a fact that the matter of financing the proposed bus line is (Continued on Page 7)

## EXECUTIVES OF CITY MAKE TALKS ON CIVIC MATTERS

**Committee on School Survey Submits Preliminary Report; Urges Bond Issue**

The light and water situation in the city of Glendale was discussed before the Chamber of Commerce board of directors this noon by Peter Diederich, plant and production superintendent of the municipal public service department. Police Chief John D. Fraser told them about his department. Mayor Robinson was present.

The school survey committee, headed by W. Q. Widdows, chairman, and Dr. Jessie A. Russell, secretary, also were present to submit their preliminary findings, having met late yesterday afternoon to arrive at a unanimous decision. Their work met with hearty commendation from members of the board.

Following is the text of the report:

**Text of Report**  
"Your committee on school survey begs to submit the following report:

"After two meetings at which an outline of plans for a full inspection of present school facilities were formulated, the committee as a whole inspected the high school plant on Wednesday forenoon, March 22, 1922."

"The committee found practically every class room over-crowded and very unsatisfactory and certain unsanitary conditions as a result of the congestion. The attendance will undoubtedly continue to increase rather than decrease and, in order to relieve the conditions, additional facilities must be provided at as early a date as possible."

"Therefore, we recommend that the proposed bond issue of Six Hundred Thousand Dollars (\$600,000) recently called for the development of the new plant and lend its support to the passage of the same."

## CAREFUL CREDIT IS BUSINESS SAVER, SPEAKER SAYS

Manager of L. A. Association  
Extends Compliments to  
Glendale Organization

J. H. Van de Water, manager of the Retail Credit Association of Los Angeles, yesterday noon spent fifteen minutes in addressing the Glendale Merchants' Association on the work to be accomplished and felicitating the local organization on what it already had accomplished.

The speaker pointed to the large number of commercial failures this year as reason enough why careful credit should be practiced and he urged all the business and professional men to get into the work of curtailing losses and stick together in solving the financial problems confronting the community.

**Foundation Laid**  
"You have laid the foundation here, in felicitating them upon the reus in the state," he told the members, in felicitating them up in the interest they have shown.

Attorney Owen C. Emery, justice of the peace for Burbank township, spoke briefly on the age of legal responsibility and solemnly assured the business men that a man who marries takes more responsibility for debts contracted by his wife prior to the ceremony than after the knot is tied.

Some seemed to question whether he warned prospective bridegrooms of this legal twist in life's little adventures.

**Over Two Score Present**

All told, there were forty-four business men present to enjoy the instructive program, according to Secretary Frank H. Pilling, who keeps careful count of his flock.

"If we only had 100 out to these meetings, representing seventy-five establishments," he exclaimed.

But that is a job up to the membership committee.

**NO HEAT; LANDLORD LOSES**

NEW YORK, March 28.—For the first time in American history a verdict for damages based on the failure of a landlord to supply his tenants with heat was rendered here.

James F. D. Cochenour was awarded \$2,500 damages for the death of his son, William, aged 4 months, by a jury before Justice Cropsey in the Supreme court, Brooklyn. The verdict was against George H. Jackson, owner of the apartment house in which Cochenour lived. Cochenour claimed that the absence of heat in the apartment last January resulted in the death of his son.

Cochenour testified that when he investigated he found no coal in the cellar and was told by the janitor that the furnace could not be lighted.

## COMMENT THAT'S ALL

Rescued From Crime School  
Glendale's Future Safe  
Eve of Industrial Strife  
Sewage Question Up Again

By Gil A. Cowan

THREE "baby bandits" are being freed through the kindly influence of Mrs. Warren G. Harding, according to advices from Washington, which relate how three boys, aged 7, 8 and 11, were convicted in West Virginia of burglarizing a postoffice. Already they have served six months of five-year terms in the National Reform school.

One rises to ask, "How did it happen?" According to officials they never should have been sentenced, the evidence in their case did not warrant conviction. Yet it is evident somebody wanted to get rid of these youngsters.

A premium of \$7915 paid on Glendale Union High School district site bonds! That is welcome news. It substantiates the faith expressed by real property owners in the future of "the fastest growing city in America."

However, the same is true in property transfers recorded here almost daily. In new subdivisions 100 per cent has been made on the original investment of several hundred dollars in a few days' time.

The United States is fast approaching the eve of a great industrial struggle with slight signs of a settlement at this late hour.

On April 1 the coal miners will lay down their tools in many fields. Already the evil effects are to be seen in the closing of the Yazoo and Mississippi Valley railroad shops at Vicksburg.

According to Washington dispatches the government contends there are huge stocks on hand to carry through the warm months, insuring little or no public suffering. The government is willing to let the operators and the miners battle it out this time to clarify the general atmosphere and find out "who's who" in the industrial world, International News Service writers state.

Tonight a community sing will be held in the First Methodist church. There is something that everyone can enjoy.

If you sing, the compensation is in the practice. If you cannot sing, the opportunity of hearing others is worthy pastime.

Of importance to Glendale is the second meeting of the Regional Planning conference, which will be held at Hotel Virginia, Long Beach, April 1. The complicated sewage question will be discussed by the sanitation committee while committees on highways, zoning, water, transportation and other vital factors in the progress of Los Angeles county will be taken up. Cecil Wilcox of Lankershim represents this section.

## BOND ELECTION FOR GAS IN VERDUGO TO BE CALLED

Various Interests Agree on Plan  
to Install System on Both  
East and West Side

(Continued from Page 1)

It was the duty of the council to fix the district to be served by gas.

"The council," he said, "is supposed to include in the bond district all that property to be benefitted by the improvement."

"Including the Thom and Ross interests?" asked Mayor Spencer Robinson.

"If they are to receive benefit," answered Mr. Evans.

Mr. Bolen declared that Mr. Newport has settled the difficulty so far as gas was concerned. He then declared that, speaking for himself, he was in favor of voting bonds to secure the Newport water system for \$20,000, provided all other difficulties involved were "ironed out."

Dr. Crocker then asked: "Does the proposed gas district include the east side?"

"It does not," was Mr. Bolen's answer. He then went on to say that the gas company had stated another four-inch main would be required to carry gas to the east side.

**East Side Wants Gas**  
"The east side is paying its taxation on the sewage disposal system," said Dr. Crocker. "The east side is prepared to pay for gas. We want gas as much as the west side."

"And you are entitled to it," was the combined comment of Councilmen Dwight W. Stephenson and A. H. Lapham.

As a result it was decided to have the city officials prepare a map of the proposed improvement district, including the east and west sides, submit it to the gas company, get an estimate of the sum required to lay the mains and call a bond election as quickly as possible.

It is declared that the gas company is prepared to put 150 men in the Woodlands and "rush" the installation as soon as it is indicated the bonds are favored.

**MAN SLAIN; WIDOW IS HELD**  
COLUMBUS, O., March 28.—Jealousy is held responsible for the murder here of Lemuel Bare, 35, engineer, at his home. Mrs. Mary Bare, 22, widow, is being held by the police. Responding to a call from neighbors, who heard shots fired in the Bare home, policemen found the lifeless body of Bare at the bottom of a stairway. Bullets had penetrated the head and body.

If you are weak and run down, drink goat's milk. Phone Glendale 1004-M. Delivered each morning.—Advertisement.

## GOATS AND HIGHER THOUGHTS WON'T BE MIXED

Greek Temple and a Swimming Pool Approved, However, for Students' Colony

Goats and chickens can not mix with Higher Thoughts. Such is the decision of Dr. W. Frederick Keeler, president of Higher Thought college, Tujunga, who is marketing Verdugo Hillhaven lots in Tuna canyon. It is a part of the famed Talamates ranch and the grove of sycamore trees and the two springs of water will provide a natural setting for an amphitheatre park.

A Greek temple, a system of roads and a swimming pool are among the improvements promised the purchasers of the 500 homesites for Higher Thought students, writers and lecturers.

### Streets To Be Improved

Street improvements for Eagle Rock, entailing the expenditure of \$10,000 is in prospect for the near future. Colorado boulevard is the first which will be put in good shape. Valley Drive, also, will get attention. It is said that when the program is complete Eagle Rock will be able to boast of having every street in first-class condition.

### Ouija Board Needed

Willmot Parcher, president of the school board, and Wallace M. Morgan, one of the trustees, have been asked by the school survey committee of the Glendale Chamber of Commerce to estimate the population of Tujunga in 1927. Mr. Morgan has bought a box of lead pencils and a stack of scratch tablets and retired to the hills for calculation and Mr. Parcher is reported to be holding midnight sessions with the ouija board.

### Eight Seek Office

Eight men have filed nomination papers for the office of city trustees in Eagle Rock. It is reported. The election will be held on April 10. The candidates are Robertson Abbot, Elmer M. Bergsvik, Harry B. Crawford, George C. Fetter, Cromwell Galpin, George G. Mattison, Sherrill B. Osborne and Martin B. Shaff.

### Street Lights for Tujunga

In preparation for keeping its promise to turn on Tujunga's long-promised street lights on April 1, the Southern California Edison company has a crew of men rapidly setting poles, stringing wires and hanging lamps. The lights are carried on arms made of gas pipe extending out from the poles. Many of them are now in place.

### Night Watchmen on Duty

Three night watchmen now are on duty at Eagle Rock under the direction of City Marshal Bramble. W. W. Francisco was appointed deputy marshal by the board of trustees there to solicit funds for the patrol service and he found it an easy matter to convince the residents that it was worth the money in view of recent robberies.

### Bank Building Starts

Richard J. Smith, contractor, has started work on the Tujunga Valley bank's new building at the intersection of Sunset and Monte Vista streets. He also has the contract for the Harris building which will be started this week-end.

## IF BACKACHE OR KIDNEYS BOTHER

Eat Less Meat, Also Take Glass of Salts Before Eating Breakfast

Uric acid in meat excites the kidneys, they become overworked; get sluggish, ache, and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush out the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region, you suffer from back-ache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad.

Eat less meat, drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to neutralize the acids in urine, so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive, cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble. Advertisement.

## Stock Company Tonight at Glendale Theatre

"Our players," the popular stock company, headed by Herbert B. Bethew, will present "Charlie's Aunt" at the Glendale Theatre tonight as the second offering of the season. Those who saw this clever company in "Hello Bill" a week ago will appreciate the big treat in store with such a hilarious vehicle as "Charlie's Aunt."

No one needs ask about the story—it is too well known. The college comedy, the masquerade and the unusual climax will give full opportunity to each member of the cast. If you have seen it, see it again. It is refreshing as the rain and brings back memories of golden school days. It has been an unusual sight to see Tom Mix in a Tuxedo suit, and he will be seen in it tonight for the last time at the Glendale Theatre. Of course, the speedy William Fox cowboy star goes to the west, and that is when the excitement begins for the audience. "Triffin"—that is the name of his picture—tells a most absorbing and exciting story.

**MOBILE, Ala., March 28.**—"On the ninth of July," Lee Fohl remarked today in the basso profundo of evident relish, "the St. Louis Browns were exactly sixteen ball games behind the 500 mark. Up to that time we had lost fifty-eight ball games, two infielders, our tempers and quite a lot of time."

"Then"—here Mr. Fohl cleared the managerial larynx with a deprecating cough—"we started to win. When the season closed we were in third place behind the Yankees and Indians, and just half a game in front of the Senators. This in spite of the fact that Walter Gerber was out of forty-one games and George Sisler missed fifteen. Can you blame me for feeling optimistic about the 1922 season?"

We could not. There was much in what Mr. Fohl said, just as there was much to admire in his talent for statistics. The Browns had plenty of luck last year, but it was all bad.

First off, George Gedeon was cast into the outer darkness because of what was deemed to be guilty knowledge of the 1919 World's series scandal. That deprived the team of its second baseman. Gerber's injury eliminated a star short fielder and Sisler's absence meant the temporary removal of one of the greatest ball players of all time.

The answer to the Browns' ability to come through last season is found

Those doubtless sincere and well-intentioned persons who, a short time ago were putting Gibbons forward as a contender against the world's heavyweight champion, Jack Dempsey, are not likely to continue in this idea for the reason that, since the result of the recent Greb match, they would get scant hearing.

There was a time when a number of ring followers were of the opinion that Gibbons could have disposed of Georges Carpentier. It is questionable today whether this opinion still is adhered to. At all events, a Gibbons-Carpentier match would have been one of the best any promoter could have put on the boards, and yet this fistic plum seems to have been totally ignored, while people were discussing wholly unlikely propositions.

In the light of what has happened in the past, we presume we now are likely to be regaled with suggestions of a Greb-Dempsey. What would happen to Mr. Greb in the event that this absurd match were staged would be exactly the uncomfortable and annoying episode in which Mr. Carpentier of France figured one July afternoon at Jersey City.

Greb already is talking about issuing a challenge to Dempsey. If Greb has any friends at all they should advise him to forget any such ideas. The American public has no desire to see another slaughter. There is nothing interesting or pleasant in deliberately seeing a good but smaller man beaten and bloodied by a superior physical fighting machine.

Thus things are revolving back again to the almost threadbare subject of matching the negro, Harry Wills, against the champion. There seems to be one great stumbling block in the way of this mixed color encounter, and that is the purse demanded by Dempsey to get into the ring. It is almost a certainty that any promoter who would venture to pay Dempsey the fortune he asks, would be forced into bankruptcy. The American public is not likely to be willing to pay the fancy prices which the promoter would be compelled to ask in order to get the money for his purse.

At best, when lighter men go out of their class to battle against heavier men, the results are unsatisfactory and generally disastrous to the smaller man. As good a fighter as Stanley Ketchell fell before Jack Johnson, and there was not a man at the ringside who did not pity the plucky Ketchell. But persons seeking entertainment are not looking to have their pity aroused. There are mighty few Bob Fitzsimmons. Ring history furnishes us with few, if any, parallels to this remarkable ring man.

A moment's consideration in the matter of a comparison between either Gibbons and Greb with Fitzsimmons must make clear the futility of the aspirations of either of the two men mentioned first. If ring history does not teach us anything there seems to be but little sense in recording it. There seem to be many promoters imbued with a sufficient greed to put on a slaughter merely to make a sort of Roman holiday without giving a thought to the fact that he may be giving the sport a black eye from which it takes a long time to recover.

Ninety-three years ago, June 10, 1829, Oxford university eight-oared "honor" crew defeated Cambridge. According to statistics the victory was "won easily," over two miles in 14 minutes 30 seconds. That was the first race between these colleges which is today the world classic of intercollegiate rowing. The race is to be rowed again in less than two weeks over the four and a quarter-mile course from Putney to Mortlake on the Thames.

Racing in the old days was done in heavy boats and up until 1852 both crews rowed on stationary seats. It was not until 1853 that the rowing sliding seat was introduced and in that year Oxford won with the new slides. The original race was rowed over a two-mile course at Henley. The course was lengthened thereafter and has been four and a quarter miles.

In the ninety-three years of competition the Putney course has always been in use, except the first year. In the sixteen years from 1829 to 1845 only six races were rowed and the boats were equipped with stationary seats and rowed on the gunwale. In 1846 the boats were first equipped with outriggers, and in 1853 the sliding seat with outriggers was adopted, but the old type heavy barge type of boat was still in use. It was not until 1857 that the crews rowed for the first time in the present style of racing shell without keel.

Since 1829, seventy-three races have been rowed of which Oxford has won thirty-nine and Cambridge thirty-three, one, that of 1877, resulting in a dead heat. The record for the longest run of victories stands to the credit of Oxford, winning nine in a row from 1861 to 1869 inclusive and again from 1890 to 1897, Oxford won eight straight. On several occasions Cambridge has won four in a row, and at the present time has won the last three races rowed. The record for the course is 18 minutes 47 seconds held jointly by both Oxford and

Cambridge. Oxford made the record originally on March 22, 1893, defeating Cambridge by one length and four feet, and Cambridge equaled the record on March 31, 1900, defeating Oxford by twenty lengths.

In 1914 the Cambridge crew averaged 17 1/4 pounds per man, that being the heaviest crew ever boated by either college up to that time. Last year Cambridge averaged 181 pounds and Oxford 187 1/4 pounds, these being the heaviest crews that ever rowed in the famous event.

Since the inception of the Rhodes scholarships men from this country, Australia and South Africa have held seats in the boats and last year, and again this year, Lothrop, a former Harvard oarsman, has his place in the Oxford boat.

Cambridge is being touted as the winner of the race this year. Last year Oxford held the lead for the first three miles but then was passed by Cambridge whose condition was perfect. Oxonians are this year placing their faith in better condition of their crew and are in hopes of surprising their opponents.

**DARWINIAN THEORY WINS**  
**SAN DIEGO, March 28.**—The Darwinian theory won out, 5 to 3, in the count of a vote taken here in the First Congregational church. Rev. Roy Campbell took the side of William J. Bryan in attacking Darwin and Wallace, and then put it to a vote of his congregation, only thirty per cent of whom indicated their belief that God created the world and man in his present day form in six days.

## News Notes From Southern Glendale

(Continued from Page 4)

### COME HERE FROM LANSING

The population of Lansing, Mich., seems to be migrating westward, according to Ed Gabel of 1412-A South San Fernando Road. He has received word that his brother, Clarence Gabel, wife and 5-year-old son, Harold, have left that city already and are now en route for California. They are expected in two or three weeks.

Sunday Mr. and Mrs. Gabel took Mr. and Mrs. Erie Denboer, recent arrivals from Lansing, upon an automobile trip to Redondo, Hermosa Beach, San Pedro and Long Beach. They were accompanied by Russell and Edward Gabel.

### HA! HA! HERE'S GOOD ONE

"The flowers they bloom in the spring"—tra-la-tra-la!

So sang H. P. Hall at 1416 South San Fernando Road yesterday afternoon in the shop of the South Glendale Motor Service.

He couldn't get out and get under because he was already just about as far under a Ford as he could get. He said:

"Me? Oh, I'm putting leaves in the spring. Git up, Lizzie!"

### MODEL SUITE IS INSTALLED

A model three-room suite is being installed this week at 1529 South San Fernando Road in the establishment of the Russell-Pierce Furniture company. This will consist of bedroom, living room and dining room and each will be finished appropriately for the display of "Russell-Made" furniture. Mr. Pierce admits that the parlor of the new flat will not seem like home unless the table supports a copy of The Glendale Evening News.

### HIS FORD REFUSES TO GO

C. S. Jordan of the Glendale Sash & Door House at 1426 South San Fernando Road says he surely has no balky Ford. It positively refused to go without an engine. Jordan has succeeded in taking its "innards" out, but hasn't had time to put a new engine back in again. He says as soon as he does "Lizzie" will be all fixed again—if he doesn't have to buy her a new chassis and a new body.

### SELLING BALDWIN SHIRTS

R. B. Kohlmeier, who arrived in California from Lincoln, Neb., a few months ago, has now started to cover the Pasadena territory for the Baldwin Shirt company, whose factory is located at 1725 South San Fernando Road. He says that he has worn the shirts made under George B. Karr's direction and can vouch for their quality.

### INSTALLING NEW FOUNTAIN

A large, new, soda fountain is now being installed at 1519 South San Fernando Road in Laura's Chocolate Shop. According to Mrs. Agatha La Com, this fountain, which has an Italian marble top and is especially elegant, is the only one of its kind in Glendale. Increasing patronage made the purchase of a new fountain imperative.

### 'BILL' MILLER IS VISITOR

"Bill" Miller, who recently sold out the blacksmith shop at 413 West Los Feliz Road to J. A. Malch, visited the establishment Sunday and reported that business was very good in his new shop at La Habra. Mr. Malch declared that he was well pleased with business, also. He said that he had no complaint whatever and that "Bill" seemed to have left a goldmine behind.

### GETS NEW FORD COUPE

Ralph E. Pierce of 1022 Forest Place is the owner of a new Ford coupe. He is junior member of the Russell-Pierce Furniture company, 1529 South San Fernando Road.

### TOM ROGAN IS SATISFIED

Tom Rogan, manager of the grocery department in the Gateway Market, reports business is the way good.

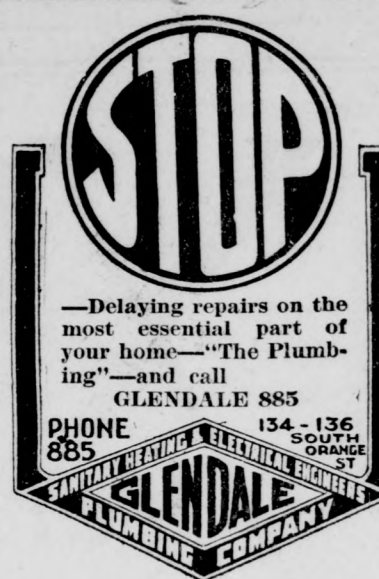

### ATTEMPTS TO MURDER 3

SEATTLE, March 28.—John J. Alonge, 29, overseas veteran, is in the city hospital here, charged with attempting to murder his wife, Winifred, and Mrs. Blanche L. Baker and Patrolman F. W. Speer are in the city hospital suffering from gun wounds inflicted as the result of a quarrel between Alonge and his wife at the Baker home.

Alonge fired at the patrolman and Mrs. Baker, who had gone out to inform the patrolman of the family row, when the two tried to enter the Baker home, at which Mrs. Alonge was a guest. Alonge was a crack army rifleman. When arrested after he had fled from the Baker home, he expressed regret to the police that he had not murdered himself.

The influx of spendthrift Americans to Europe has had a great deal to do with the attitude of Europe in regard to the money owed us by the allies.

## New China Alliance Is Seeking Control

By EDNA LEE BOOKER  
Written for International News Service  
SHANGHAI, March 28.—It is re-  
ported unofficially in the Chinese  
press today that a treaty has been  
concluded between Dr. Sun Yat Sen,  
president of the Southern Chinese re-  
public, and General Chang Tso Lin,  
war lord of Manchuria and one of the  
most powerful independent figures in  
China. According to the press, the  
objects of the treaty are three-fold:  
First—Overthrow of the Peking  
government.  
Second—Defeat of Wu Pei Fu.  
Third—Installation of Sun Yat Sen  
as president.  
After being installed as president,  
if the new alliance attains its ob-  
jects, Dr. Sun, according to the stories  
published here, is to go on an exten-  
ded tour of foreign capitals in the in-  
terests of China.  
Dr. Sun, at the head of the armies  
of the south marching north against  
Wu Pei Fu, has reached Chang Sha  
in Hun An province.  
Reports received here are to the ef-  
fect that Wu Pei Fu is busy preparing  
for defense of his lines and a clash in  
the near future is predicted.

## NOMINATED BY PRESIDENT

WASHINGTON, D. C., March 28.—  
President Harding has nominated  
William Phillips of Massachusetts to  
be Under Secretary of State and Le-  
land Harrison, of Illinois, to be as-  
sistant secretary of state. Phillips is  
the present American minister to the  
Netherlands. He succeeded Henry P.  
Fletcher of Pennsylvania, who was  
appointed minister to Belgium. Har-  
rison is now connected with the state  
department here.

## BUFFALO HERD SCATTERED

LAWTON, Okla.—Many buffalo  
from the big herd on the Wichita  
national forest and game preserve  
will be sent to various city parks  
this spring. Several have already  
been shipped by Frank Russ, super-  
intendent of the park, from Cache,  
Okla.

## "If I Could Only Get Up That Gas I Know I Would Feel Better."

How often have you felt that way?  
How often have you wished for  
something to give you genuine and  
lasting relief from gas?  
Don't buy any ordinary dyspepsia  
tablets for temporary results. Go to  
a first-class drug store and ask for a  
bottle of genuine Baalmann's Gas  
Tablets. Take three tablets an hour  
before meals and again three after  
eating—then watch. Now comes a  
surprise. No more gas, no more  
smothered feeling, no difficult  
breathing, no bloating.  
Remember, Baalmann's Gas Tab-  
lets are not only for the relief, but  
also for the prevention of gas. Most  
people with gas suffer from nervous  
dyspepsia—not common indigestion.  
Baalmann's Gas Tablets in the fa-  
mous yellow package, price one dol-  
lar, are sold by Roberts & Echols and  
other reliable druggists. J. Baal-  
mann, Chemist, San Francisco.—Ad-  
vertisement.

## LET PEOPLE DECIDE ON BUS SYSTEM, OFFICIAL SAYS

**City Attorney Bert P. Woodard  
Submits Proposition to Los  
Angeles Utilities Board**

(Continued from Page 1)  
to be and of necessity will have to be  
presented to the people of the city of  
Glendale in the form of a bond issue  
as soon as possible after the permit  
is granted. This bond election will  
present the matter directly and  
squarely before the people.

"If the people do not want the pro-  
posed bus line or do not want to  
hazard the loss or discontinuance of  
the present Pacific Electric service  
then the bonds will be defeated; oth-  
erwise, they will carry. If the bond  
election is carried, the answer will  
be conclusive.

"Of course, the council would not  
be foolish enough to call such a bond  
election before obtaining the permit.  
The lack of such a permit would  
probably be the one fact that would  
defeat such election. Therefore, we  
submit that the people of the city of  
Glendale are entitled to know at the  
time that the bond election is held  
that the permit has been granted."

**Railway Files Brief**  
D. W. Pontius, first vice-president  
of the Pacific Electric Railway com-  
pany, and Frank Karr, its chief coun-  
sel, also filed a brief with the Utili-  
ties Board yesterday in which they  
declared the service furnished Glen-  
dale is adequate and there is no ne-  
cessity for a bus line.

The brief is a lengthy one and  
quotes a number of court decisions.  
It declares the railway has aided in  
the growth of Glendale and declares  
the tunnel proposed will cut 10 min-  
utes from the running time from Los  
Angeles.

The brief calls the proposed bus  
line "unfair competition" and asserts  
"it has made no provision for taking  
care of the peak loads night and  
morning."

The company asserts that if the  
system is permitted it will lose three-  
quarters of its business and make a  
financial failure of the Glendale line.  
The brief asserts that the city should  
be bound by the decisions of the  
State Railroad commission.

## Deaths and Funerals

**EDITH MYRTLE BRUCH**  
Services for Edith Myrtle Bruch,  
who passed away March 24, 1922, at  
her home, 1241 South Orange street,  
were held yesterday afternoon at the  
Little Church of the Flowers, Rev.  
J. G. Blue of the Tropic Presbyter-  
ian church officiating. The church  
was banked high with floral tributes  
and the church was filled to over-  
flowing with the many friends and  
associates of the departed.

Opening the services the sadly  
sweet strains of "Face to Face" was  
rendered by Fannie Marple Retts.  
Paying a touching tribute to the  
memory of the departed, Rev. Blue  
spoke from the text, "I Am He That  
Comforteth You." Escorted by four  
color-bearers, Mrs. Mayne Pollock,  
Mrs. Gertrude Griffin, Mrs. Louise  
Purnell and Mrs. Susie Peck who had  
been associated with Mrs. Bruch in  
the Woman's Relief Corps, where  
she, too, had been color bearer, the  
remains were laid reverently away  
in the mausoleum at Forest Lawn Me-  
morial park. The pall bearers were  
J. R. Danner, Howard Crane, Charles  
Crane, Herbert Crane, W. T. Ward  
and W. W. Weldon.

the past ten years. She became the  
bride of Charles J. Bruch on Octo-

sister, Mrs. Alice Weldon of Los An-

## Business-Getting Power of the Evening News

Exclusively a  
Glendale Paper

The Glendale Evening News is printed and circulated on its own merits. It has stood alone as a local daily newspaper for nine years and is showing a steady growth, both in circulation and advertising patronage. Advertisers value it because it is not a supplement or insert to any other paper and because it is exclusively a Glendale paper.

Best Publicity Medium  
In Glendale

The business organization of The Evening News is first, last and all the time a Glendale institution, and as such guarantees advertisers the best publicity medium available in the Glendale territory.

3,000 Paid-in-Advance  
Subscribers

Its circulation of 3,000 represents paid-in-advance subscribers who voluntarily order the paper because of its merits, and not on account of procuring an outside publication of which the local paper is merely a supplement to an organ, whose camouflaged purposes, when carried out, will be destructive to the best interests of Glendale merchants.

Our circulation books are open to your inspection. Our merchandising service is at your command.

## Frank Norris Story Is Shown at T. D. & L.

George Melford, director of many years' experience, who won international fame by his production of "Behold My Wife," "The Great Impersonation" and "The Sheik," produced "Moran of the Lady Letty." Mr. Melford knows his game from every angle and when he writes this is a role in which all the robust qualities possessed by Mr. Valentino are brought to the front with splendid effect.

The late Frank Norris, a novelist of tremendous power, wrote "Moran of the Lady Letty," a real adventure story of the high seas and San Francisco's purlieus.

Ralph Allan says: "If you are an admirer of Rudolph Valentino and the works of George Melford, see 'Moran of the Lady Letty.' It is wonderful entertainment, a fine story and Valentino shows he can fight as well as he can make love. Tell them to come early. The T. D. & L. theatre will be packed to capacity during the showing of this, Valentino's latest picture."

## W. R. Anderson Now Has North-End Patrol

The Glendale Fire & Patrol Dispatch has now been divided into two businesses. The business section will be retained by Ira J. Herbert of 249 North Brand boulevard, its founder. The northern residential section of the city has been taken over by W. R. Anderson of 102A North Brand boulevard, who will operate it under the name of The North-end Patrol.

Mr. Herbert has great confidence in Mr. Anderson's ability to handle the residential territory to the complete satisfaction of the organization's clients.

Mr. Anderson had eighteen months of secret service detail at Seattle while a member of the army intelligence corps. He served five years in the army and two in the navy. He came to Glendale sixteen years ago.

## Thornycroft Boys in Need of Automobiles

The management of the Babcock Shows, which are being staged all of this week in the tent at Harvard and Orange streets, has volunteered to furnish reserved seats to Thursday night's performance to all of the ex-service men of Thornycroft hospital, according to an announcement made by L. M. Hoge, chairman of the disabled veterans' entertainment committee.

As yet no mode of transportation has been obtained for the boys, and it is requested that any one who will furnish an automobile for that purpose should get in touch with Mr. Hoge by ringing Glendale 201.

## RESIDENCE SECTION IN ZONING LAW IS DESCRIBED

City Attorney Woodard Gives  
His Opinion As to Legal  
Phases of District

(Continued from Page 1)  
also provide "Together with its usual accessories" or some such similar phrase. The term, "usual accessories," or such other term as is used in the ordinance should be defined, or rather a statement should be embodied in the ordinance to the effect that such terms shall not include any buildings not located on the same lot or parcel of land with the building to which it is accessory, and shall not include any private garage containing space for more than four automobiles. This last provision is necessary in order to create a first-class residential district. If some provision of this kind is not included, it could readily be contended that no accessories or garages could be erected, and I am confident that no section would desire to be so restricted.

"If the language of Section 2 of Ordinance No. 529 is followed and nothing more, then there would be no limitation on the number of residences which would be located upon a lot or one parcel of land, the only requirement being that the dwelling must not be used, or designed, or intended, or arranged, to be used or occupied for any purpose other than a single family residence or dwelling. Power Not Limited  
"Ordinance No. 529 expressly states that nothing therein shall be construed to limit the power of the council to act in such matters without following the procedure set forth in the ordinance. The powers of the council are, therefore, not limited by Section 2 of said ordinance, and it can pass such ordinance creating a first-class residential district as in its judgment is proper in each district when it is so designated. The only limitation of the power of the council to act in such matters is contained in Article 15, Section 2 of the city charter, which relates to the notice and hearing to be given before passing an ordinance.

"If the residents to a given district desire to have a proposed district restricted to a greater extent than the language of Section 2 of Ordinance No. 529 would restrict it, they should so state in their petition. Each section of the city would probably want different restrictions. An additional clause to the present petition you now have could be added to suit each particular case. I know of no other way to handle the matter under Ordinance 529 and the charter."

## Rialto Stock Company Very Well Received

Opening last night before an audience which filled the Tent Theatre, Harvard and Orange streets, the Rialto Stock company made its initial bow in the comedy-drama, "My Jim," and was well received.

The story has to do with "down east" characters, and employs all of the emotions from smiles and laughter to serious moments and tears. It has a touch of "Way Down East," and, coming from the same pen, this can be easily understood.

It has been quite a while since a "road show" spoken drama has been presented in Glendale, and its reception was a hearty one. The ladies' orchestra and the between-act vaudeville also provided acceptable entertainment.

As advertised in The Glendale Evening News, the admissions are 10 and 25 cents for children and adults respectively, but if reserved seats are desired, a like charge is made. "My Jim" continues tonight, while "The Barrier," the Rex Beach story, plays two nights commencing tomorrow night.

## Howard Huntington's Funeral on Wednesday

Howard E. Huntington, only son of Henry E. Huntington, millionaire railroad builder, passed away at his Oak Knoll residence yesterday at the age of 46, following six months' illness. He was formerly general manager of the Los Angeles Railway Company. Funeral services will be held tomorrow morning at 10 o'clock from the Little Church of the Flowers here at Forest Lawn Memorial Park. Interment will be private.

## 5000 WARRANTS ARE OUT

SAN FRANCISCO, March 28.—A wholesale roundup of income tax delinquents is under way in San Francisco. Armed with some 5000 warrants in restraint of arrest, sixty-five deputies were seeking out the delinquents. The warrants do not call for arrest, but serve as an attachment on property. The warrants cover not only those delinquent in payment, but those who filed returns which failed to cover the true amount of their income.

## REAL BEER—FOR MEXICANS

LOS ANGELES, March 28.—Arrangements have been made to transfer the old union brewing company equipment to Nogales, Mex., where the plant is to resume manufacture of real beer. Fifty employees with their families are to be taken to Mexico to operate the brewery. It was announced. Since prohibition came the plant has manufactured near beer.

It doesn't cost any more to giggle over the telephone than to talk over it.

## Have You Typewriter? If So, Better Watch Out for This Trick

Is a typewriter thief at work? W. W. Hunter of the Glendale Paint & Paper Company, 119 South Brand boulevard, believes so.

His Underwood machine disappeared under the following circumstances:

A man, name unknown, appeared at his store and stated he was giving free service on Underwoods. This pleased Mr. Hunter.

"Would you mind if I took care of the machine, it needs cleaning and is 'crying for oil,'" continued the affable stranger.

While Mr. Hunter was taken from his desk, a week has passed and neither the machine nor the stranger has returned.

"I guess he is taking good care of it," lamented Mr. Hunter this morning. And that isn't all of it, either.

"Someone stole a gallon of enamel worth \$9 from our store the other day. Glendale is growing real metropolitan, don't you think?"

### Verdugo Canyon Matters

In accordance with decision at the last regular meeting, the committee representing the property owners in Verdugo Canyon, also Mr. Newport, representing the P. P. Newport interests, appeared.

After discussing the advisability of calling an issue for the purpose of acquiring gas mains, Mr. Newport, in behalf of the interests he represented, stated that the P. P. Newport company were heartily in accord with the creating of a district to vote bonds for installing gas mains in Verdugo canyon, and that his interests would waive any action regarding the purchase of water plant in that district, in order that the gas might be transported to residents, without further delay.

This action on the part of Mr. Newport was received by the committee in good faith, and they were instructed to take up with the city engineer and secure outlines of district, for the council. On motion, the council adjourned to meet in the committee of the whole. Council reconvened and adjourned.

**Kingdom of Childhood**  
"Children have wonderful imaginations. I wonder why we don't carry our imaginations through life. Give a child a sandpile and he is master of it. If you had a million dollars, it would be master of you. Give me the kingdom of childhood."

"Fill your minds with everything that is good and worth while. You can't have a bright, happy and cheerful disposition and remember the mean things of life. A pessimist is a blind man in a dark room looking for a black hat. A pessimist is like a man who has swallowed an egg and is afraid to move for fear it will break."

"No man can be happy long doing wrong. No man can be successful long doing wrong. If you break a law, it breaks you. One of the great laws of life is: Obey the law of force and that force becomes your slave, disobey and it becomes your master. Power, light, heat—all these things are yours if you obey the law of electricity. If you want to know what happens when you disobey the law of electricity, just take hold of a charged electric wire."

"The trouble with most of us is that we learn the everlasting lessons of life too late."

## Benefit Movie Show To Be Given Friday

## Cost of Living Is Coming Down—Slowly

WASHINGTON, D. C., March 28.—The cost of living is still coming down—slowly. The retail cost of food decreased from one to four per cent in ten representative cities scattered over the United States during the period from February 15 to March 15, the department of labor announced. Price declines were: Manchester, four per cent; Baltimore, Bridgeport, Newark, New Haven, New York, Richmond and Washington, three per cent; Milwaukee, two per cent and Denver, one per cent.

For the year ending March 15, 1922, there was a decrease of thirteen per cent in the cost of food in Bridgeport and Denver twelve per cent in Manchester and New Haven; 11 per cent in Baltimore, Milwaukee and Washington; ten per cent in Newark and nine per cent in New York and Richmond.

As compared with the average cost for the year 1913, the retail cost of food on March 15, 1922, showed an increase of fifty-one per cent in Richmond, forty-six per cent in Washington, forty-three per cent in Baltimore, thirty-three per cent in New York, 39 per cent in Milwaukee, thirty-eight per cent in Manchester, thirty-seven per cent in New Haven, thirty-six per cent in Newark and thirty-five per cent in Denver.

Prices were first obtained by the department from Bridgeport in 1913, hence no comparison for the nine-year period was given for that city.

## Three Small Boys to Be Freed From Prison

WASHINGTON, D. C., March 28.—Three small boys, aged 7, 8 and 11, now serving five year prison terms for alleged burglary of a postoffice in West Virginia, will soon gain their liberty and be returned to their parents through the interest and intervention of Mrs. Warren G. Harding, it is learned.

An investigation of their case by the department of justice which followed Mrs. Harding's intervention disclosed an unusual set of circumstances which led to the imprisonment of these "youthful desperadoes."

Officials said today they never should have been sentenced, not alone because of their tender years, but also because the evidence in their cases did not warrant conviction.

They have already served about six months in the national reform school here. The lads are Andy Bergola, aged 7; Frank Bosko, aged 8, and Teddy Bosko, aged 11.

## Bobbed Hair Banned by Business Leaders

By HARRY R. FLORY  
Written for International News Service

NEW YORK, March 28.—Flappers, girls who dress in extreme fashion and have bobbed hair are "out of luck" in the maddening daily whirl of New York's big business insinuations. Officials of a score of biggest business and banking establishments in the city have expressed their aversion to the flapperish type and outlined how they keep her out of their businesses and how they handle her, if by some miracle, she slips between the closely set employment bars. Bobbed hair is not so bad, they said, but—

At the federal reserve bank not one of the 1700 girls who may have the bobbed tresses is permitted during business hours to "fluff it up" with a comb secreted somewhere in her desk. The ideal arrangement of officials said, is for her to wear a net. There are no set rules at the bank.

There is an investigating committee of the older girls of the establishment. They investigate individual cases where a girl goes to the extreme in any way. The particular girl is gently remonstrated with and in 99 cases out of 100 she conforms to the bank's standards. If she doesn't she seeks other employment.

Rules as to how girls shall dress are not new at the John Wanamaker stores, in fact, they are 29 years old and 50,000 are affected. Here are some of the rules:

In winter dresses shall be blue or black.

In summer, the "costume" may be varied by a white waist.

At all times the stockings and shoes shall be black.

The dress must be "not too low" at the neck and "not too high" at the bottom.

The bobbed hair question has not come up only three or four girls in the institution wear it that way.

At almost every other institution where girls are employed in large numbers, at hotels and offices, as well as in the banks and department stores, the dress and conduct of the girls is closely scrutinized before they are employed, obviating close supervision afterwards. At no place, however, are the regulations very specific. They do not specify lengths and breadths by inches and the statutes are not infrequently left to the girl's own judgment. But her judgment is supervised.

There are exceptions to every rule; brave men have been known to devote considerable time to telling about it.
